

Fur and Feathers Pet Services

Weddings/Events Package

Client Information

Prior to choosing the inclusion of a pet, the Client should consider:

- Is the venue pet-friendly?
- Do any guests have major fears/health concerns with animals?
- Will the event be indoors or outdoors?
- Whom will the pet point of contact be?
- How much involvement will the pet have:
 - Will it be escorted by a bridal party member or F & F?
 - Will it be acting as a flower girl or ring bearer?
- How does the pet react in a social setting?
We will not recommend a pet being involved if they are reactive/nervous in high-stress situations(unpredictable around people/children OR cannot be handled with basic commands).

Pet attendants are trained in Pet First Aid/CPR and reading pet body language. Fur and Feathers is bonded and insured with Pet Sitters Associates.

Client should obtain event insurance as required by the venue.

Consultations happen one on one with the client prior to signing an agreement and deposit. During this time we will discuss the wedding details, timeline, and what involvement the pet will have. We will complete pet detail forms and spend time with them to make an assessment. Upon signing the service agreement, we require 50% of the package total and the remaining balance will be due one week prior to the event date.

It is recommended (if possible) that the client take the pet to the venue to become familiar with the surroundings and environment.

All pets must be on leash/harness during the entirety of the service to ensure an enjoyable experience for all.

Fur and Feathers will not provide services for pets that are reactive or untrained with basic commands. First and foremost, we are advocates for pet safety and if your pet is anxious and uncomfortable being in costume or in an unfamiliar setting, we will not force it.
